# HISTORY & HERITAGE

## HOW IT ALL BEGAN

In 2006, YETI founders, brothers Roy and Ryan Seiders, set out to build a cooler without compromise. They were tired of handles breaking apart, latches snapping off, and lids caving in year after year. Ordinary ice chests were cutting outdoor adventures short and regularly costing money to replace. So, they decided to create a solution — to engineer a cooler that could keep ice for days, one that was durable enough for anglers to stand on and cast from, one that was completely different than any cooler that had come before it. That's how YETI Coolers was founded, and when the legendary Tundra® Cooler hit the market. It was a cooler made especially for the serious outdoor enthusiast rather than the occasional camper. One that can get dropped out of a truck, dragged through the backcountry, withstand any weather, and still be game for more. One that is virtually indestructible and designed to be irreplaceable.

## YETI TODAY

Since 2006, we've built even more products that stand up to the hazards of the wild so you can stay out longer, travel farther, and live harder. No matter where the wild takes you, there's a YETI ready to tackle your next adventure head on.

A night scene of three people and a dog camping around a fire. The scene is set in a dark, wooded area under a deep blue, cloudy night sky. A bright campfire of sticks and logs is the central light source, casting a warm glow on the ground and the people. On the left, two people stand near a small dog. On the right, a person sits on a large, light-colored cooler. The overall mood is serene and adventurous.

# **HARD COOLERS**

Legendary coolers that feel just as at home in the wild as you do.

# TUNDRA

**OUTDOOR COOLERS THAT ARE  
UP FOR A CHALLENGE.  
ANY CHALLENGE.**

## **THE FIRST COOLER OF ITS KIND**

When we set out to create a new standard for coolers, the Tundra was at the forefront of our mission. Born out of frustration with coolers that caved in when you stood on them, gave up on cold-holding when the weather got warm, or made it easy for bears to break into, we were determined to improve three main elements: durability, extended ice retention, and weather resistance.

# WHY THE TUNDRA IS WORTH IT

## **T-Rex™ Lid Latches**

Patented design uses heavy-duty rubber so you'll never see another busted latch.

## **LipGrip™ Handles**

Make carrying your catch feel easy.

## **DoubleHaul™ Handles**

Military-grade polyester rope adds extra durability and lifting power.

## **Vortex™ Drain System**

Leakproof, rugged, and designed for quick and easy draining.

## **PermaFrost™ Insulation**

Pressure-injected commercial-grade polyurethane foam in the walls and lid makes sure your ice stays icy.

## **NeverFail™ Hinge System**

Two hinge pins and interlocking design prevent the hinge from ever breaking.

## **Rotomolded Construction**

Makes it armored to the core and virtually indestructible.

## **InterLock™ Lid System**

Creates a form-fitting barrier against the heat.

## **ColdLock™ Gasket**

A freezer-quality gasket circles the length of the lid to block out the heat and lock in the cold.

## **Anchorpoint™ Tie-Down Slots**

Molded tie-down slots for easy mounting to your boat, trailer, or truck bed.

## **Bearfoot™ Non-Slip Feet**

Prevent sliding to keep your YETI in place.

## **FatWall™ Design**

Extra-thick walls hold up to two inches of insulation for unmatched ice retention.

## **Certified Bear-Resistant**

A man wearing a blue baseball cap and sunglasses is smiling while holding a large, silvery fish (likely a salmon) on a boat. The fish is held horizontally, showing its side profile. The background is a body of water under a clear sky. In the foreground, a fishing reel is visible on the boat's surface.

**“CLIENTS SIT AND STAND  
ON MY TUNDRA WHILE  
I’M GUIDING. ON ONE  
OCCASION, WE EVEN HAD A  
MONGOLIAN GUIDE’S LIFE  
SAVED BY IT!”**

**LEAKPROOF**  
ICE-FOR-DAYS  
TOUGH-AS-NAILS  
**COOLER™**

## IN IT FOR THE LONG HAUL

Hopper Soft Coolers are built to help you take on larger hauls and longer days. High-density fabric defends against nature's harshest conditions, a 100% waterproof zipper keeps every drop out, and premium insulation technology promises ice-cold drinks from dawn until dusk.

# WHY THE HOPPER IS WORTH IT

## HydroLok™ Zipper

We borrowed materials from survival suits and Hazmat protective gear to make the ultimate waterproof, airtight closure.

## Tie-Down Point

Six D-ring Tie-Down Points give you multiple ways to secure the Hopper.

## EVA Foam Bottom

The heavy-duty EVA Foam Bottom adds stability and additional abrasion resistance.

## Welded Seam Construction

RF-welded seams eliminate stitching, providing waterproof construction and superior durability.

## HitchPoint™ Grid

Accessorise your Hopper with the flexibility of the Hitchpoint Grid. Easily fasten bottle openers, carabiners, key chains, or accessories like the YETI SideKick Dry™ through the strapping.

## Wide-Mouth Opening

Allows easy access and visibility to your contents.

## DryHide™ Shell

The Hopper's high-density fabric is waterproof, antimicrobial, and resistant to punctures, and UV rays. The liner is made from an FDA-approved food-grade material.

## Double-Stitched Carry Options

With a detachable shoulder strap and three different sets of reinforced handles, you've got options on how to make the load easier to carry.

## ColdCell™ Insulation

Closed-cell foam offers cold-holding far superior to ordinary soft coolers. Feel for yourself.

# DRINKWARE

Ultra-durable drinking vessels hell-bent on keeping you hydrated.

# RAMBLER

OVER-ENGINEERED  
FOR

# MAXIMUM INSULATION

Our Rambler line was created with one mission in mind: to make tough-as-hell drinking vessels that could keep cold drinks cold and hot drinks hot for hours on end. And we didn't compromise one feature along the way.

# WHY THE RAMBLER IS WORTH IT

## 18/8 Stainless Steel

We source industrial-strength stainless steel because we know our customers are going to put our Ramblers through the wringer. Its thick-gauge construction is built to take on any weather and all dents and dings.

## Radiant Barrier

The radiant barrier reduces radiation's impact on your cup or bottle, making sure your drinks stay cold.

## Dishwasher Safe

Because no one needs more work to do.

## Load-and-Lock™ Gasket

Twist-off gasket keeps your bottle or can securely in place.

## Double-Wall Vacuum Insulation

Using vacuum insulation is one of the best known insulators, and it helps ensure cold drinks stay cold and hot drinks stay hot. So we use two walls of this technology to offer maximum ice retention that can't be beat.

## Over-The-Nose™ Technology

Extra-wide opening for easy loading, drinking, and cleaning.

## TripleHaul™ Cap

Three-finger grip for easy carry.

# DURACOAT COLOUR

Each unique colour is designed to go on strong and last through the life of your Rambler warranty. These new shades are tough and won't crack, peel, or fade. So stay out on the water longer or take your time at the lease because our Ramblers are built for the long haul.

Available in four DuraCoat Colour shades, inspired by our time in the wild: Seafoam, Black, White, and Brick Red.  
Plus, they're all dishwasher safe.

# PANGA

## THE AIRTIGHT SUBMERSIBLE GEAR FORTRESS YOU CAN HAUL ANYWHERE

Panga Duffels leave ordinary duffels in the dust. These YETI bags are 100% waterproof, nearly impenetrable, and game for float trips, rodeos, and everything in between. So go ahead and drag it on the dock, haul it on the boat, or chuck it overboard — we did, and the Panga lived to tell the tale.

# WHY THE PANGA IS WORTH IT

## **ThickSkin™ Shell**

Made of high-density nylon and thick TPU lamination to be puncture- and abrasion-resistant.

## **HydroLok™ Zipper**

Makes sure water stays out so your gear stays bone-dry, no matter how torrential it gets.

## **QuickGrab™ Lash Points**

Designed for when you need to get up and go at a moment's notice.

## **DryHaul™ Straps**

In the hands or on the back, they're as durable as they are comfortable.

## **Stowaway Mesh Pockets**

Two easy-to-access mesh pockets keep your valuables safely tucked away.

## **MetalLock™ Hardware**

This hardware can take on smacks and whacks without breaking.

## **U-Dock™**

The terminal end of your HydroLok Zipper that ensures a completely airtight seal.

## **EVA Molded Bottom**

EVA Molded Bottom provides a sturdy and waterproof landing pad for the Panga.

# BUCKETS

A helping hand for heavy lifting.

# LOADOUT 5-GALLON BUCKET

IN ADDITION TO EVERYTHING ELSE,  
**THIS THING**  
**HOLDS** ITS OWN

## **MOST VERSATILE TOOL OF THE TRADE**

Buckets have been overlooked for far too long. They're the unsung hero of hard work, lugging feed on ranches and washing down boats for centuries on end. Inspired by their longevity, we took this versatile and age-old tool and backed it with a nearly indestructible design and a comfortable YETI-strong handle to create the world's first 5-gallon, food-safe, easy haulin' bucket.

# WHY THE LOADOUT IS WORTH IT

## **SureStrong™ Build**

This workhorse is high-impact-resistant and virtually indestructible.

A black and silver lantern is the central focus, hanging from a thick, light-colored rope. The rope is attached to a weathered, rusty metal structure that appears to be part of a larger piece of equipment or a building. The background is a mix of textures, including the rough metal and some dry, straw-like material. In the foreground, a red bag with the text "Right Now Mineral" and some colorful mineral samples is visible. The overall scene suggests a rugged, outdoor environment.

## BOTTLE STRAW CAP

We simplified sipping with the Rambler Bottle Straw Cap. When you need some water, all you have to do is flip it open, take a sip, and close it tight to stay moving.

## BOTTLE CHUG CAP

It just takes a quick half-twist of the TripleHaul™ Handle to open and then you're good to go, making it easy to steal a sip without slowing down.

## RAMBLER JUG MOUNT

Crafted from rugged polypropylene, the Rambler Jug Mount can be fastened to your ute, boat, or trailer. This jug mount includes wood screws, bolts, nyloc nuts, and washers.

# LOADOUT ACCESSORIES

## THESE ADD-ONS ENSURE YOUR LOADOUT BUCKET WORKS EVEN HARDER

### LOADOUT UTILITY GEAR BELT

The Utility Gear Belt is simple to attach, ready to take a beating, and built to last. The QuadPocket™ Design fits tools, shells, tackle, or most anything else you need to stash. And the HitchPoint Grid webbing fits any MOLLE accessory, so you're always ready for the field. Simply put, it's the perfect accessory to keep you outfitted for whatever task you're tackling.

### LOADOUT CADDY

The LoadOut Bucket Tray Caddy has a built-in Grab-and-go Handle that fully retracts for quick storage and is easy to grip. With three large compartments, you can see what you're storing.

### LOADOUT LID

Inspired by our Rambler lids, the LoadOut Lid is transparent, easy to remove, and strong enough to handle the hazards of the wild. The HeftyHex™ Construction makes for a durable framework that resists cracking in extreme heat and cold, not to mention, can withstand up to 135kgs of pressure.

### LOADOUT LID TECHNOLOGY

#### Clear Tritan Lid

Keep an eye on whatever you're storing.

#### Water Tight

Nothing's getting in.

#### Hex Support

Hex-patterns create a durable substructure that can resist tension and stress.

#### Pressure Release Valve

When temperatures heat up, pressure doesn't.

#### Four-Finger Release Tab

Just takes four fingers to get your lid off.

# YETI BOTTLE OPENERS

## WALL MOUNT OPENER

Our bottle opener mounts directly to your Tundra, Roadie, or TANK but is just as easily at home on your dock, in your kitchen, or out by the grill.

# YETI WARRANTY INFO

## **WE'RE DEDICATED TO MAKING SOME OF THE MOST DURABLE OUTDOOR PRODUCTS ON THE PLANET. BUT SOMETIMES THE UNEXPECTED HAPPENS.**

As a reminder the YETI Product Warranty below should be made available for consumers to review. If a consumer has further questions about the Warranty Policy, they can find more information at <https://au.yeti.com/pages/help-guide> or can contact YETI at 1300 289 384

## **WARRANTY DISCLAIMER**

This warranty does not include any manufacturer responsibility for any incidental or consequential damages resulting from the use of the cooler. If warranty applies, the manufacturer will repair or replace, at their discretion, the cooler or any part or component that is deemed defective. YETI reserves the right to change products and designs without incurring any obligations to incorporate such changes into already completed products, or those in the hands of dealers or consumers. Products repaired or replaced under this warranty may or may not incorporate these changes. Damaged products must be returned directly to YETI, in the original box or adequate cardboard packaging, freight prepaid. A copy of the original sales receipt and the Return Authorization Number (RMA#) must be included with the product.

## **5-YEAR LIMITED WARRANTY**

YETI Tundras, TANKs, Roadies, YETI ICE, and the YETI Rambler Series of stainless steel products carry a 5-Year Limited Warranty against defects in material and workmanship. This warranty applies to only the original owner and is void if the product is used commercially, structurally altered, or subjected to stress beyond the physical limits of the materials used in body or components, or is damaged as a result of abnormal use. Normal wear and tear is not warranted. Any limited edition product still under warranty will be replaced at the discretion of YETI with the same size product in a different colour based on availability.

## **3-YEAR LIMITED WARRANTY**

YETI Hopper, Panga, and LoadOut carry a 3-Year Limited Warranty against defects in material and workmanship. This warranty applies to only the original owner and is void if the product is used commercially, structurally altered, or subjected to stress beyond the physical limits of the materials used in body or components, or is damaged as a result of abnormal use. Punctures and normal wear and tear are not warranted. Any limited edition product still under warranty will be replaced at the discretion of YETI with the same size product in a different colour based on availability.
