## The Weber® Summit® For first impressions – for lasting impressions

### Weber Summit Gas Barbecues

The first time you set eyes on a Summit barbecue, you know it's something very special: it has such a commanding appearance. Its brilliant styling and superb finish make ordinary gas barbecues look exactly that - ordinary. Some people can feel it when they see commercial quality, and that's the feeling you get when you lift the hood on one of our Summit barbecues. These barbecues really have everything, from the amazing cooking system to the Tuck-Away™ rotisserie motor and light-up control knobs. If you had your own barbecue chef, this would be the barbecue they would choose.

The entire cooking system is pre-assembled in its own housing and then calibrated and tested by our experts at the factory. The burner system is factory installed into the cooking box. All the chef has to do is turn the Snap-Jet™ ignition switch - then the excitement really begins. Available in bottled or natural gas, you're sure to find one that the barbecue chef in your family will love.

### The Weber Summit E-470

A large four burner barbecue with a side burner, a smoker box with its own individual burner, a Sear Station™ and a rotisserie with infrared burner. Available in black porcelain enamel.

### The Weber Summit E-670

A large six burner barbecue with a side burner, a smoker box with its own individual burner, a Sear Station and a rotisserie with infrared burner. Available in black porcelain enamel.

### Weber Summit Built in Gas Barbecues

Featuring the innovative SlideFrame™ design, which conveniently allows the barbecue to slide in and out of place with ease. This makes maintenance, service and even cleaning totally hassle free - that's something you won't find on any other permanently mounted built in barbecue. These large built in barbecues are available in either 4 burner (E-460) or 6 burner (E-660) models, with a smoker box with its own individual burner, Sear Station and a rotisserie with infrared burner. Available in black porcelain enamel.

# WHAT SETS THE SUMMIT® BARBECUE APART?

**Rotisserie with infrared burner**  
For creating spit roasted, self-basting food. Rotisserie cooking adds another dimension to the barbecue and the infrared burner ensures food has a perfect caramelised finish.

**Stainless steel rod cooking grills**  
Heavy duty solid rod grills create an even cooking surface and will stand the test of time.

**Porcelain enamel lid**  
Heavy gauge steel, protected by the highest quality porcelain enamel won't rust, peel or scratch.

**12.7 MJ (12,000 BTU) side burner**  
Fry eggs, pancakes and onion rings on the powerful side burner. Great for preparing sauces and even deep frying.

**Snap-Jet™ ignition**  
Burners ignite as you turn the gas on with the control knob.

**Smoker box with dedicated burner**  
Add the delicious flavours and aromas of wood smoke to your food. The smoker box has a dedicated burner to allow for easy control.

**Flavorizer® cooking system**  
Stainless steel Flavorizer bars protect the burners, prevent flare ups, and create barbecue smoke to give food amazing Weber® flavour.

**Cleaning system**  
The cleaning system funnels fat and juices away from the heat of the cooking area to prevent fat fires. Fat collects in a disposable drip tray for easy cleaning.

**Sear Station™**  
An additional sear burner creates an intense high heat cooking area for perfectly searing steaks.
